## CLIMATE CHANGE

### United Kingdom → COP-26

From 1st to 12nd of November 21, the world will have the Conference of Parts (COP-26) in Glasgow. The UK is committed to work with all countries on the frontline of climate change.

## Vaccine

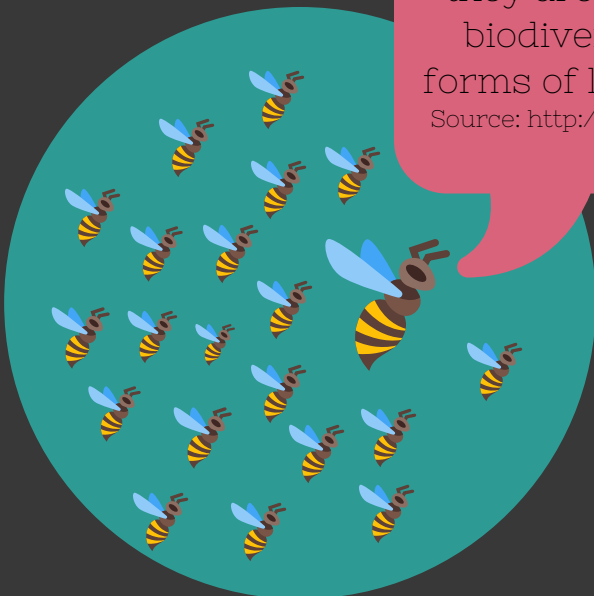

Vaccine against coronavirus positively affects the World Sustainable Development Agenda

## BIODIVERSITY

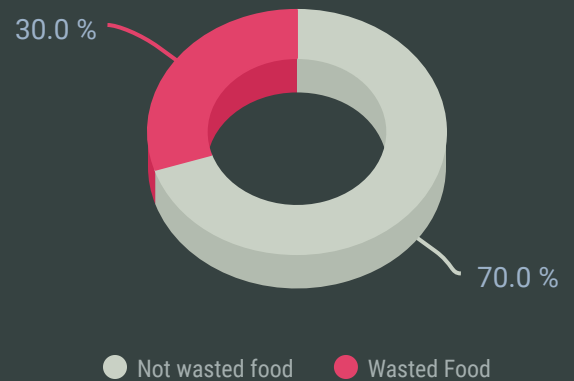

### Pollination → Food and Environment

"Pollinators are not only vital to our food supply, they are a key part of biodiversity that all forms of life depend on!"

## FOOD WASTE/LOSS

The treatment for food waste and loss offers the opportunity for better use of water resources, decrease the Green House Gases emissions and also can be used for the production of Biogas and Renewable Natural Gas.
